

## Beautiful Things Promo – After Effects Template

# 01 // User Guide

A beautiful slideshow, using abstract shapes, to promote your work as an artist, writer, musician, film maker, photographer, singer – in fact any type of creative person or business. The project is abstract enough to successfully portray corporate messages too.

### Features :

- No Plugins Required
- High Definition 1080p
- Fast Render
- Modular Structure for Easy Editing

### Fonts used in the project :

Please download and install the FREE Roboto Slab font before opening the project :

<http://www.fontsquirrel.com/fonts/roboto-slab>

### Here's a quick start guide on how to get this file to work for you :

-----

#### Where do I start?

Go straight to the folder '\_EDIT THESE'. In here are all the text and image compositions you need to edit.

#### Placing Images

When placing your images (9 instances) you will notice red areas in those compositions. The red depicts areas which are not shown in the final video.

#### Placing Main Text and Caption Text

We have purposely left the placement of text fairly loose, in terms of layout.

Please consistently cross-check your new, edited text with the main composition (\_RENDER THIS / Beautiful Things Promo), to ensure the text you place does not encroach into the image areas.

### Caption Block Color

You can change the Caption Block color from a single point in the main composition (\_RENDER THIS / Beautiful Things Promo). Use the top layer 'Edit Caption Color Here' of this composition to change the color of the Caption Blocks globally.

### Rendering

To render simply place the composition '\_RENDER THIS / Beautiful Things Promo' into your render queue and choose your desired output specifications.

This composition is set up at 1920x1080 30fps.
