### Installing the MOGRT file

This MOGRT will only work in Premiere Pro versions CC 2017 and later.

In Premiere Pro go to **Graphics / Install Motion Graphics Template** and locate the .mogrt file.

### Adding a Motion Graphic

Drag the template thumbnail from the **Essential Graphics** panel, onto your sequence Timeline. Select the clip on your Timeline to bring up the **Edit** controls.

### Notes on Editing

In the **Edit panel** simply type in some text, choose an icon and colors.

There are **9 icons** to choose from.

Choose from **4 icon animations** (the way in which the icon enters the screen).

Choose from **6 line styles** (the thin lines which emit once the icon has entered).

Change **background** and **icon background** colors.

Repeat as required!
